PROFILE

Senior Platform / DevOps Engineer with 6+ years of experience owning production cloud infrastructure across AWS and GCP as the sole DevOps owner for 20+ live platforms. Deep expertise in Kubernetes (EKS), Terraform, Docker, and CI/CD automation with a proven record of delivering secure, zero-downtime deployments. Reduced infrastructure costs by 40%, improved deployment speed by 85%, and cut MTTR by 35%. Hands-on MLOps and LLMOps experience including MLflow pipelines, Kubernetes-based model serving, and RAG-based GenAI systems.

CORE TECHNICAL SKILLS

Cloud Platforms

AWS (EC2, ECS, EKS, RDS, S3, ElastiCache, Lambda, IAM, CloudWatch, Auto Scaling), Google Cloud Platform (GCP), DigitalOcean

CI/CD & Automation

GitHub Actions, GitLab CI/CD, Jenkins, Drone CI, Terraform, Ansible, automated testing and deployment pipelines

Monitoring & Logging

Prometheus, Grafana, New Relic, CloudWatch, ELK Stack, SLI/SLO-driven alerting

Databases

MySQL, PostgreSQL, Redis, OpenSearch, Neo4j, Database Optimization

Web Technologies

Ruby on Rails, Node.js, Python FastAPI, React, Angular, WebSocket, Spree Commerce

Containerization & Orchestration

Kubernetes (Amazon EKS), Docker, Docker Compose, Amazon ECS, containerized microservices, auto-scaling workloads

MLOps & Platform Engineering

MLflow, DVC, Kubeflow, Kubernetes-based model serving, FastAPI inference APIs, RAG pipelines, containerized training workflows

Operating Systems

Linux/UNIX (RHEL, Ubuntu, CentOS), Shell Scripting, System Administration

Programming & Scripting

Bash, Python, YAML, Infrastructure as Code (IaC)

Networking & Security

Nginx, Apache, HAProxy, VPC architecture, DNS, DHCP, SSL/TLS, IAM least-privilege, DevSecOps practices

PROFESSIONAL EXPERIENCE

Platform Engineer, W3VILLA TECHNOLOGY

07/2021 – Present
Noida, India

- Led complete DevOps lifecycle for 20+ production gaming and web platforms, acting as sole DevOps engineer.
- Implemented CI/CD pipelines with automated testing, vulnerability scanning, and blue-green and rolling-update deployment for zero-downtime releases.
- Migrated large-scale apps from EC2 → ECS, reducing costs by 40% and deployment time by 85%.
- Managed multi-cloud strategy (AWS ↔ GCP) and containerized microservices with intelligent autoscaling.
- Integrated DevSecOps practices for proactive threat detection and compliance enforcement.

Linux System Administrator, ASPIRIFY ENTERPRISES PRIVATE LIMITED

08/2020 – 01/2021
Delhi, India

- Administered 50+ Linux production servers with 99.8% uptime.
- Automated provisioning and security hardening via Bash scripting, reducing manual effort by 60%.
- Optimised web and database clusters (Apache, Nginx, MySQL, PostgreSQL) for high availability.

Linux Server Administrator, COST2ACTION

06/2019 – 08/2020

- Managed multi-server Linux infrastructure and automated deployments improving reliability by 70%.
- Configured HAProxy load balancing, DNS/DHCP, and developed monitoring scripts for performance tracking.

Noida, India

KEY PROJECTS

Enterprise Gaming Platform Migration:

Led migration of a real-time multiplayer gaming platform with 20+ microservices from EC2 to ECS. Implemented blue-green and rolling-update deployments, automated CI/CD with Drone-CD, and integrated Terraform and NewRelic for monitoring. Achieved zero downtime, 85% faster deployments, and 40% cost savings.

E-Commerce Platform Optimization:

Scaled high-traffic e-commerce application on AWS using auto-scaling, RDS optimization, and GitHub Actions CI/CD. Delivered zero-downtime deployments, improved page load speed by 60%, and enabled 5x traffic scalability.

Multi-Environment Startup Infrastructure:

Designed reusable IaC templates using Terraform and Docker to standardize AWS/GCP environments. Automated provisioning for development, staging, and production, cutting setup time by 80% and ensuring cost-efficient scalability.

Internal Product Development Platform:

Built multi-cloud containerized architecture for CRM, e-commerce, and automation tools. Automated build and deployment workflows, enabling rapid product delivery and reducing release cycles by 70%.

Recognition

Most Consistent Performer 2022, W3Villa Technology

Star Performer 2021, W3Villa Technology

CERTIFICATIONS & TRAINING

Certified Kubernetes Administrator (CKA)

Cloud Native Computing Foundation

RHCSA Training (Red Hat Certified System Administrator)

Training completed

EDUCATION

Bachelor of Science (Physics, Chemistry, Mathematics),
Mahatma Jyotiba Phule Rohilkhand University

2015 – 2018
